## **THINGS TO CONSIDER WHEN SELECTING A UNIT FOR YOUR EVENT**

1. What type of event are you hosting?
2. How many guests will be attending event?
3. How long will the guest be in attendance at the event?
4. Will alcohol be served?
5. Do you require an onsite attendant?
6. What is your preferred delivery/pick up time frame?
7. What site preparations will need to be completed before deliver/pickup?

## **SITE SPECIFICATIONS & REQUIREMENTS FOR SET UP**

2. Hard, flat and level surface (end to end and side to side) for placement of the unit.
3. Asphalt or concrete drive/parking lot, are preferred placement locations.
4. **WATER SOURCE** – All comfort stations require a water source within 50' of unit placement with standard ¾" FNPT fitting and a minimum of 60 PSI at source.
5. **POWER SOURCE** - Access within 50' to power supply (check individual power requirements)
6. **Power and water must be operational at time of delivery.** If power and water are not available to test run the unit at time of delivery and a return trip is necessary, an additional charge may be applied.
7. No overhanging limbs or shrubbery restricting, blocking or dragging across units during installation.
8. Clearance for placement is 13' high and 10' wide.
9. Sufficient area to maneuver unit into place (approx. 60' in length when combined with towing vehicle)
10. Weather can delay both the install and the pickup. Make sure to have a weather plan in place.

## **CUSTOMER'S RESPONSIBILITIES**

1. A customer representative must be at the site at time of delivery to take delivery of keys and be shown proper operation of the unit.
2. Customer will be responsible for ensuring the condition of the comfort station remains as it was when the unit was delivered. Any and all damages will be the responsibility of the customer.
3. Customer will be responsible for having a representative monitor the unit at all times during the event to ensure smooth operation of the unit, i.e. picking up trash, making sure no toilet or sink continuously runs water, making sure that toilets are flushed to prevent backup, etc.
4. Customer is responsible for basic cleaning at the close of the event. All trash should be removed and all toilets flushed.

## **PIEDMONT PORTABLES' RESPONSIBILITIES**

1. Unit will be delivered sufficiently stocked with consumable items such as soap, toilet paper and paper towels.
2. Unit will be immaculately cleaned and fresh upon arrival.
3. TCS/PP personnel will set unit in place, connect power and water and ensure proper operation.
4. TCS/PP personnel will instruct customer on proper operation of the unit and delivery keys.
5. After event has ended, unit will be emptied/pumped out on site and removed at the scheduled and agreed upon time frame.
6. Site will be returned to pre-delivery condition - clean and litter free.
